For a Blaze of Glory in the Fall Garden Plant . . .

Lehman's *Hardy* Garden *Chrysanthemums*

The Parade of the 1942 Headliners

Perhaps the greatest collection of New plants ever offered in a single year. All five have been tried under average garden conditions and have proven themselves to be better varieties—improved in form, color, hardiness and early blooming qualities. We unhesitatingly recommend them to you. Order them and be the “first with the newest”.

Peachblow (New). Distinctly new and different is this grand addition to the single type. A glorious blending of salmon pink, fawn, and bronze, it may be compared with the immensely popular “Mrs. Pierre S. duPont, III”, perhaps a bit more salmon. A husky, strong stemmed, well branched plant producing an amazing quantity of 2½-inch blossoms, each with four rows of petals, flowering from late September until frost. A “must” for your Autumn Garden. Height 2½ feet. **Each 60c.**

September Bronze. The warm bronze tints of Autumn are beautifully reflected in about the shapeliest little pompon blossoms you have ever seen; quantities of them shading from golden bronze to intense warm bronze simply cover the plant from mid-September on through into November or killing frost. The color effect is always good because the plant is uniformly attractive all through—no jaded appearance at any time. We say September Bronze is absolutely the most colorful early Chrysanthemum to date. **Each 60c.**

September Cloud. Beautifully rounded blossoms, purest white in color with primrose shading in center, wonderfully dark green contrasting foliage. Nicely rounded, compact plant completely covered with flowers from mid-September until frost. The best white pompon. **Each 60c.**

September Gold. Brilliant golden-yellow blossoms, trim and neat, twenty-five or more to a spray, completely cover the shapely, well-rounded plants by mid-September and go on and on until the season's end. Colorful mounds, the plants are eighteen inches in height—much wider—the first season. Immensely prolific and somewhat earlier in succeeding years. A real advance. **Each 60c.**

Silver Moon. This gleaming white Chrysanthemum has a degree of warmth and intensity that is entirely new, and for which there is a real need. No other kind like it! No other attains such early perfection! The double rays of milk-white petals combine with the pale yellow central halo to suggest the play of soft moonbeams. A showier Shasta Daisy in effect. Mild, sweet fragrance, remarkably contrasting dark green foliage, a fine lustrous 2½ ft. plant producing flowers from September on equal to the finest greenhouse product yet unusually frost resistant. These are the outstanding qualities of “Silver Moon”. **Each 60c.**

Hardy Hybrid Mums

Acacia. New! A dwarf spreading Korean with multitudes of glistening yellow semi-double flowers. A grand landscape variety. Remarkably free flowering. **Each 25c, 3 for 60c.**

Adironda. A very fine early blooming variety. Fully double, light bronze flowers overcast with rose. A fine variety for early fall flowers. **Each 25c, 3 for 60c.**

Agnes Selkirk Clark. Single blossoms 3 inches across which shade from bronze-pink to apricot and salmon. It is a vigorous growing variety producing abundant sprays of fragrant flowers which are in full bloom in late September. **Each 20c, 3 for 50c.**

Aladdin. One of the very earliest to bloom. Usually in bloom from late August to frost. Very double flowers of coppery bronze overlaid with orange and apricot. **Each 25c, 3 for 60c.**

Autumn Lights. New. Semi-double coppery bronze of medium height blooming about mid-September. Produces changeable

color effects but is always delightful. We like this one very much. **Each 25c, 3 for 60c.**

Barbara Cumming. A bronze-yellow that is in full bloom September 10th. A beautiful color and very desirable plant. One of our special favorites. **Each 25c, 3 for 60c.**

Burgundy. A fine new sweet scented Korean of deep amaranth with rich cerise crimson shadings. The large clusters of double flowers appear at their best in late September and early October. **Each 25c, 3 for 60c.**

Caliph. One of the very brightest of all Chrysanthemums. Color a brilliant ox-blood red. Large branches of flowers are freely produced in late September. **Each 30c, 3 for 75c.**

Clara Curtis. New. At last we have an early blooming garden Chrysanthemum that will delight you Northern gardeners who have always had the disappointment of having your Mums caught by frost. This new variety Clara Curtis will begin blooming in late August and from then to freezing weather will be a glorious mound of hundreds of single salmon-pink daisy-like blossoms. Very free blooming. Height 18 to 24 inches. **Each 30c, 3 for 75c.**

Crimson Glory. An unusual bright bronzy-red blooming over a long period in September. Very bright and effective in the garden or for cutting. **Each 25c, 3 for 60c.**

Cydonia. An excellent double form with large flowers of glowing orange overcast with mahogany. An unusual and attractive color. Blooms in late September. **Each 25c, 3 for 60c.**

Dean Kay. Here is a new Mum that will receive a lot of attention when better known. Glorious lavender pink flowers are lavishly produced on plants two feet high and as far across. Flowers completely hide the foliage from August until snow flies. Extremely hardy—can be grown anywhere. The finest introduction in Mums the past few years. **Each 30c, 3 for 75c.**

Early Bronze. We think this is tops among the very early pompons. Color a bright orange-bronze, very double with many petals. In full glory from late August to frost. Very free flowering and an excellent cut flower. Height 20 inches. **Each 25c, 3 for 60c.**

Ember. A remarkable hardy variety with excellently formed double flowers of a brilliant bronze made up of a combination of coral and orange shades. The blooms are of pleasing shape and 3 inches in diameter. In full bloom mid October. Height 2½ ft. **Each 25c, 3 for 65c.**

Summer Mum Collection

Every variety in this collection will bloom during August and early September.

Chrysanthemums (Continued)

Eugene A. Wander. At long last we have that great big glistening golden-yellow Hardy Chrysanthemum we have been waiting for. Flowers are very double and from 4 to 5 inches across and produced in such abundance as to hide the entire plant with a blanket of golden yellow. In full bloom Sept. 20th. Height 20 inches. You must have this one. **Each 50c, 3 for \$1.25.**

Gleam O' Gold. A splendid primrose-yellow in full bloom in late September. This one adds a charming touch to any planting as the color blends well with other varieties. Very showy. **Each 25c, 3 for 60c.**

Goblin. A new fully double warm golden bronze blooming in early October. Strong neat growing plant. Very hardy. Height 2 ft. **Each 25c, 3 for 60c.**

Indian Summer. Vivid, glowing orange that immediately captures attention. It is a large flower, 3 inches across but altogether attractive and distinct in form. Growth is distinct, erect and sturdy, never requiring support of any kind. It fills the need perfectly for a late-flowering chrysanthemum that will not be marred or destroyed by late October frosts. Height 2 to 2½ feet. **Each 25c, 3 for 60c.**

King Midas. A most remarkable creation. The plants are a mass of fully double soft yellow flowers shaded slight bronze for a long period. Highly praised by all who have grown it. In full flower by late September. Height 2½ feet. **Each 25c, 3 for 60c.**

King's Red. This variety was found growing in a Northern garden and was so outstandingly good that we procured the plants for propagation. A massive plant fully 3 feet in diameter completely covered with double red flowers with bronze and rose shadings. In full glory in late September. **Each 25c, 3 for 60c.**

Lavender Lady. New. The only sweet scented true lavender hardy mum. A strong growing variety with unusual strong branching sprays of large double flowers three inches across. In full glory in early October. By all means add this one to your collection. Very hardy. Height 2½ ft. **Each 30c, 3 for 75c.**

Little Bob. This new creation is far superior to any of the cushion Mums which it resembles in growth. In mid September the 18-inch plants are completely covered with very double flowers of a mahogany-bronze. Exceptionally good. **Each 30c, 3 for 75c.**

Lorelei. A very productive early double yellow noted for its fine form and rich golden yellow flowers which are 3 inches across. An outstandingly superior variety. **Each 25c, 3 for 50c.**

Louise Schling. The flowers are of good size, fully 3 inches across, with three or four rows of petals, fluffy and distinct in appearance. Glowing salmon-red in color, changing to a lovely soft bronze-salmon as the flower matures. It is a remarkably free-flowering variety, and one of the first to flower. **Each 25c, 3 for 60c.**

Milky Way. A new departure from the conventional type of hardy Mum. A handsome semi-double informal flower with excellent texture. Color a rich milky white. Branching sprays very useful for cutting. Blooms late September. **Each 40c, 3 for \$1.00.**

Mrs. Pierre S. Dupont. This very new variety perhaps comes nearer to perfection than any other variety known. The color is a peach-pink tinted with rosy salmon and fawn. Flowers are large, fully double, produced on excellent long stems in large sprays. In full bloom in early October. By all means include this one in your collection. **Each 50c, 3 for \$1.25.**

Mrs. Sam P. Rotan. A very fine large double golden-yellow of fine form and strong constitution. Very hardy and free flowering. In bloom late September. **Each 25c, 3 for 60c.**

Nancy Copeland. The branching sprays of this variety are completely covered with large single flowers 3 to 4 inches across of a bright spectrum-red. This is one of the earliest of all Mums to bloom. Very distinct. Height 2½ feet. **Each 20c, 3 for 50c.**

Pale Moon. New. Fluffy semi-double sulphur yellow blossoms in great profusion in late September completely covering the strong plants. A must have. **Each 25c, 3 for 60c.**

Spencer, Iowa

I have given you several orders for plants and everything has been very satisfactory—such nice large clumps that have made good in my garden. I appreciate the Lehman Gardens.

Chrysanthemums (Continued)

Pink Lustre. Perhaps the freest flowering of the entire list. Hundreds of large single orchid-pink flowers on good strong stems. Flowers up to 4 inches across. One of the surest varieties to bloom as it begins in late September. Height 2½ feet. Each 25c, 3 for 60c.

Psyche. Imagine a billowy mound three feet across so completely covered with large delicate single shell-pink flowers that the foliage isn't visible. Then you have a picture of this beautiful variety. Very strong grower blooming about mid September. Each 20c, 3 for 50c.

Pygmy Gold. Dwarf plant seldom over 15 inches high, covered with small, perfectly formed, clear golden blossoms from early September right through until killing frost. Plant Pygmy Gold several in a group if you want early Mum color in your garden. Very hardy. Each 25c, 3 for 60c.

Rapture. Lovely medium sized, double flowers combining a beautiful deep orange with a lively suffusion of bright carmine. Each 25c, 3 for 60c.

R. Marion Hatton. Strong, sturdy, well branched plant of double soft canary yellow flowers. Very reliable. Blooms in mid September. Each 25c, 3 for 60c.

Roberta Copeland. New. We consider this the finest of all new garden Chrysanthemums introduced in the past ten years. The charming full semi-double blossoms of rose-red shading to salmon-gold and maturing with a bronze tinge are freely produced from September 15th to severe freezing weather. An iridescent glow changing with the degree of light and always lovely. If you plant but one Chrysanthemum let it be Roberta Copeland. Each 25c, 3 for 60c.

Romany. Fully double blooms between carmine and Nopal-red, with bronze tones enhanced by the gold petal reverse appearing in the center. The cut flowers last for three weeks in water. Unusually hardy. Blooms in early October. Height 2½ ft. Each 25c, 3 for 65c.

Rose Glow. This is a fine recent introduction. Color is a raspberry-rose shading to opalescent rose with age. We like it. Height 20 in. Blooming by October 5th. Each 25c, 3 for 65c.

September Jewels. An early flowering strain producing quantities of single flowers on very hardy plants. Lovely colors including pink, yellow, orange, lilac, and soft reds. In mixtures only. Each 20c, 3 for 50c.

September Queen. Begins flowering late in August but in September is a profusion of pure white double flowers. 3½ inches in diameter. Very useful for cutting purposes. Height 20 inches. Each 20c, 3 for 50c.

Sequoia. An exquisite shade of rich mellow amber. Very large double flowers on strong plants. Each 25c, 3 for 60c.

Pompon or Button Collection

These are the perky little fellows with small very compact double flowers that stand up straight as sticks.

Sunny Boy. A free flowering clear yellow pompon in bloom from early September to frost. Fine companion to Early Bronze. Excellent for garden or cutting. Each 25c, 3 for 60c.

Symphony. A combination of mauve-rose overcast with coppery-pink and soft lavender. Flowers are large, fully double and are produced on strong branching sprays in early October. Very free blooming and reliable. Each 25c, 3 for 60c.

Tasiva. A wealth of bloom on excellent straight stems of the purest white. In freedom of flowering this variety is surpassed by no other double white. Height 2 ft. Each 20c, 3 for 50c.

Thalia. The graceful sprays of brilliant sparkling orange flowers make a gorgeous autumn color effect. It is tremendously free flowering and effective due to its splendid robust branching habit. Flowers are duplex, of excellent form and texture. Each 25c, 3 for 60c.

White Gull. A dwarf baby pompon not exceeding 12 inches. Growth very compact. Flowers produced in great abundance. Pure white flowers one inch in diameter and is fully flowering in September. Each 25c, 3 for 60c.

White Normandy. A very large double; snowy white flowers in full bloom by September 20th. One of the best whites. Each 20c, 3 for 50c.

Chrysanthemums (Continued)

New Spoon Chrysanthemums

A distinct new race introduced for the first time in 1940. A most interesting and attractive type with quilled petals that flatten out at the tip into miniature spoons. All bloom in early October. A novelty that is very much worth while.

Golden Spoon. Golden yellow tubes and spoons.

Jasper Spoon. Straw yellow tubes with Jasper red spoons. Very striking.

Orchid Spoon. Lovely orchid pink.

White Spoon. Pure white tubes and spoon with yellow center.

New U. S. Dep't of Agriculture Mums

This grand new group of Hardy Chrysanthemums was developed by the U. S. Department of Agriculture and are a God-send to the gardeners of the North as they bloom before there is any danger of frost. All are dwarf bushy plants about 18 inches tall and as far across. Usually no green foliage is visible under the mass of bloom. You Northern gardeners must have these! They also do well in the South as they will add a full month to your Chrysanthemum joys. All have been given Indian names.

Algonquin. One of the best yellow mums, producing pure bright yellow flowers three inches across. In full glory by September 5th. A delight in either the garden or vase. Each 25c, 3 for 65c.

Geronimo. Fully double bronze flowers with buff tones. In full bloom by August 25th. Exceptionally good. Each 25c, 3 for 60c.

Muskogee. Semi-double purplish-rose with wine disc surrounding yellow center. The unopened buds are wine colored. Very unusual and attractive. In full bloom late August. Each 25c, 3 for 60c.

Otsego. Double rosy-pink showing small yellow center. Very free flowering. The rows in our fields were one mass of color from late August to frost. Each 25c, 3 for 60c.

Pohatcong. The largest and tallest of the group. Lovely double deep pink flowers 4 inches across with rich dark green foliage. Long blooming period beginning in early September. Satisfactory under all conditions. Each 30c, 3 for 75c.

Seminole. Large fully double fluffy white flowers borne freely from early September on. Fine clean foliage. A gem. Each 25c, 3 for 60c.

Hardy Cushion Mums

Pink—Bronze—Red—White—Yellow

(Also sold as Amelia, Blaze O-Mum and Azalecamum.)

Pink Cushion. The sensation of the Century of Progress. The plant is a dwarf, rounded compact mass of double rose pink flowers from late August to frost. Not unusual to count 500 to 600 flowers on a single plant. Hardy and easy to grow. Strong potted plants that will bloom heavily by August. Each 25c, 3 for 60c, 10 for \$2.00.

Bronze Cushion. A counterpart of Pink Cushion and like it in every respect but color which is a glowing orange bronze. An exceptionally appropriate fall color. Each 25c, 3 for 60c, 10 for \$2.00.

Red Cushion. This, like the pink variety, is very free flowering and brilliant in the garden. Flowers somewhat smaller and appearing a bit later but still makes a grand showing. In locations of early frost dig and pot the plants either in bud or bloom and enjoy them in the house. Can be potted even when in full bloom. Each 25c, 3 for 60c, 10 for \$2.00.

White Cushion. The very double white flowers completely cover the green cushion of foliage in fall. Very desirable. This is the earliest of all cushion Mums to bloom. The short sprays make grand cut flowers for centerpieces which last fully 10 days in water. Each 25c, 3 for 60c, 10 for \$2.00.

Golden Cushion. Now for the first time we have a good clear golden yellow cushion mum making the color range complete. The plant grows about 18 inches high into a large round cushion which is completely smothered with dazzling yellow flowers from late August to frost. Each 25c, 3 for 60c, 10 for \$2.00.

Remsen, Iowa

Have always wanted to write and tell you how delighted I was with my spring order of plants—they were the nicest, largest plants I have ever received. Just like moving a plant from your own garden. Every plant grew and all bloomed so nicely—I truly appreciate your big fine plants.

Miss B. H.

With ordinary good attention, these five plants will produce from 2000 to 2500 blossoms during the fall.

Phlox Subulata Creeping Phlox or Thrift

Creeping Phlox is invaluable for the rockery and border with its pretty, moss-like evergreen foliage that during April and May is hidden by an avalanche of blossoms in white, pink, rose, lilac, and purple. All varieties of Phlox Subulata should be grown in a dry location with full sunlight. A few of each

color should be in every garden. Excellent for edging purposes.

Our list comprises all the better varieties from both American and European growers. We feel we have the largest and most complete collection of Phlox Subulata in the Country.

Our prices are for strong well rooted field grown plants.

Alba. The pure white flowers completely cover the compact plants in May. Each 20c, 3 for 50c.

Apple Blossom. One of the newest varieties with neat compact foliage which is completely covered with bright apple blossom pink flowers with showy purple eye. A fast grower and the earliest to bloom. Each 25c, 3 for 60c.

Atropurpurea. New! A splendid novelty. A vivid carpet of deep wine-red flowers completely covering the bronze foliage in May and June. Habit of growth excellent. Very free flowering. Plant in masses for a gorgeous sight. Each 25c, 3 for 60c.

Autumn Rose. A new variety of outstanding merits. The bronze foliage is completely covered with bright rose flowers in spring and again during the cool fall months. Each 25c, 3 for 60c.

Brightness. An outstanding color. A bright rosy-lavender pink with large crimson center. Very large flower. Fast grower and excellent for massing. Each 30c, 3 for 75c.

Brittoni. Entirely distinct from all others in that the petals are finely cut, giving a lacy effect. Color a near white with blue spotted center. Neat, fine foliage. Each 25c, 3 for 60c.

Blue Hill. New! The closest approach to a blue creeping Phlox Subulata. A vigorous and worthwhile acquisition. Petals twisted giving the bloom Hyacinth effect. Each 25c, 3 for 60c.

Emerald Cushion. Very new! Distinct bright emerald colored foliage. Very large flowers of an outstanding deep rose. No other variety can approach it for richness of color. Each 35c, 3 for 90c.

Fairy. A pale blue with dark purple eye. Slow growing and neat in habit. A fine rock plant. Each 20c, 3 for 50c.

June Jane. An unusual white with pink-flushed center. Excellent bright green foliage. Each 25c, 3 for 60c.

Leuchtstern. Another fine European variety with large full petals opening rosy-pink and changing to lilac. A very neat and compact plant. Does not spread rapidly. Each 35c, 3 for \$1.00.

Spring Beauty Collection

All strong field plants in a good color range to brighten your garden when color is appreciated.

Lilakonigin. New! Promising new European variety that is far superior to Lilacina. Small compact deep green moss-like foliage and deep lilac flowers. Each 30c, 3 for 75c.

Lilacina. A robust creeping variety fine for bold masses in the rockery or border. Rose magenta flowers in May. Evergreen foliage—pretty in winter. Each 20c, 3 for 50c.

Maeschnee (May Snow). A much improved alba with better flowers and a neater plant. Thousands of pure white flowers completely cover the green mats of foliage in April and May. Each 30c, 3 for 75c.

Moerheimi. A fine carmine-pink variety producing large flowers on a mass of light green foliage. Each 25c, 3 for 60c.

Glenside, Pa.

Bulbs and Phlox received and are all planted. We wish to thank you for the very lovely order you sent us.

Phlox Subulata (Continued)

Morning Star. A different and distinct variety with near white flowers overcast with lilac. Center blue-purple star. **Each 20c, 3 for 50c.**

Rochester. A brilliant deep rose of outstanding beauty. A vigorous grower forming clear compact mounds which are completely hidden with flowers in May. **Each 30c, 3 for 75c.**

Ronsdorf Beauty. New! The sensational new European shell pink with very large flowers cover the plants making a brilliant display. We consider this variety the tops of all Phlox Subulata. Strong field plants. **Each 50c, 3 for \$1.25.**

Sampson. Very large full petaled flowers of an even deep rose. Mass effect rosy red. A very fast growing variety. **Each 35c, 3 for 90c.**

Schneewitchen (Snow White). This could be called the "Baby Breath" Phlox Subulata as the tiny white flowers are very small but are produced by the thousands. Blooms about two weeks later than the other varieties. Entirely distinct from any other variety. **Each 35c.**

Sprite. Very large flowers of a soft rose, with crimson center. Rich green foliage turning bronze in winter. **Each 25c, 3 for 60c.**

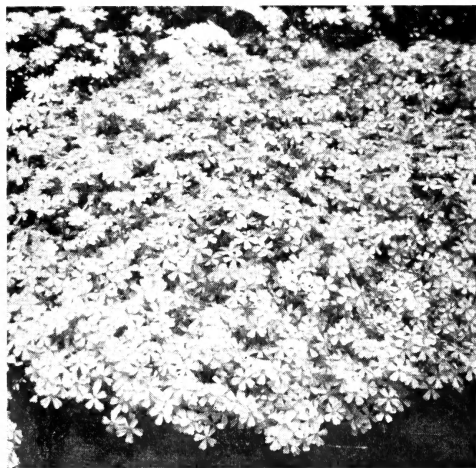

Earliest to Latest Collection

This collection is being given again as we have had so many requests to furnish it again this spring. Really a fine collection as it prolongs the blooming period by two weeks.

6 Strong Plants for

\$1.60

Phlox Subulata Atropurpurea

Hardy Phlox

Africa. Brilliant deep carmine with darker eye. Very large arched heads. Splendid strong grower. Very hardy. One of the best dark reds. Medium height. **Each 25c, 3 for 60c.**

Apollo. Deep, rosy-purple shaded crimson. Immense globular heads carried on tall, straight stems. Very free flowering. **Each 25c.**

Brilliant. New! A tall graceful new red that is a real acquisition to the phlox list. Color almost a true crimson without a marking. A true even color. Much darker than Firebrand. **Each 35c, 3 for 90c.**

Chieftain. New! A new red that is so red that it is beyond description. Color a piercing fiery cherry red with darker center. When cut and put under artificial light the color is alive with brilliance. Without a doubt the best bright red phlox to date. **Each 35c, 3 for 90c.**

Jules Sandeau. Pure clear watermelon pink. Flower heads and florets extremely large. Very distinct and outstanding. Dwarf. **Each 20c.**

Mrs. Harding. An improved, clear salmon-pink. Trusses and florets very large. We consider this the best in its color. Medium height. **Each 35c, 3 for 90c.**

Mrs. Jenkins. A splendid late flowering pure white. Very free flowering. Splendid in large masses. **Each 20c, 3 for 50c.**

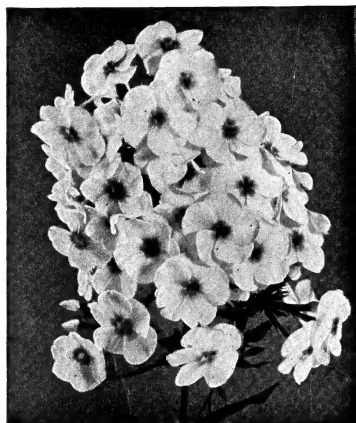

Mt. Hood. (New 1939). The largest, strongest growing purest white Phlox ever introduced. The massive heads of immaculate pure white flowers are freely produced over a long season. By far the best pure white phlox. Medium height. **Each 35c, 3 for 90c.**

Rheinlander. An old standard variety and still one of the best because of its robust constitution. Large heads of bright salmon-pink produced on strong stiff stems. **Each 20c, 3 for 50c.**

Rokoko. Large individual florets on large trusses. Good bright pink. Alone in its color class. Very strong grower. **Each 35c, 3 for 90c.**

Wm. Kesselring. A sturdy growing rosy purple which is entirely distinct. A strong sturdy grower. **Each 25c, 3 for 60c.**

Phlox Divaricata. Our native lavender-blue wood phlox. A showy, easily grown, free flowering native for the rock garden or semi-shaded border. Trailing dark green foliage covered in May and June with multitudes of fragrant lavender flowers. A nice plant to use with darwin tulips. Height 12 inches. **Each 20c, 3 for 50c, 7 for \$1.00.**

Phlox, Mrs. Harding

New Pyrethrum *Brilliant, Fascinating*

(Painted Daisy)

The Pyrethrum is very closely related to the fall blooming Chrysanthemum. Think what thrills lay before us garden lovers with the introduction of the newer improved Painted Daisies. Exquisite Painted Daisies to thrill us during spring and early summer and magnificent Hardy Chrysanthemums for thrills during late summer and fall. An interesting garden could be maintained with just these two subjects.

These glorious new creations of Double Painted Daisies are

Brilliant. A promising new double—a rich shade of deep rose overcast with bright red. We like this variety very much. Good strong stems which are excellent for cutting. Flowers are often four inches across and petals stand out gracefully—never drooping. A well grown established plant seen in full bloom is a sight not soon forgotten. **Each 40c, 3 for \$1.00.**

Buckeye. An extra large double red with tufted center of deep rose. When well established the large flowers will completely cover the plant with color. Stems are strong and usually hold from 5 to 9 very large flowers. One stem is a bouquet in itself. **Each 40c, 3 for \$1.00.**

Florence Shedley. So far the only true light pink double painted daisy. Very double coral pink flowers shaded with lavender and flesh. The very tall stems support the beautiful flowers in aristocratic fashion. Will be loved by all. Stock limited. **Each 60c.**

James Kelway. A new English strain of large flowering single red. Many unusual fine crimson shades with a center of deep gold. Extra long strong stems make this variety fine for cutting. We offer strong blooming size plants. **Each 25c, 3 for 60c, 7 for \$1.00.**

Marian Plonske. New. Introduced in 1941. Beautiful single pink painted daisy. Imagine a clear pearly pink daisy four inches in diameter with broad petals that stand out without drooping on strong stems about two feet high. If given good rich soil and plenty of water it will bloom during June and then again in the fall for five or six weeks. Nearly an everblooming Painted Daisy. **Each 50c, 3 for \$1.25.**

Miami Queen. A fascinating new large semi-double variety with deep pink guard petals and a crested center of rich pink. We had two long rows of this variety in gorgeous bloom in our gardens last summer and all who saw them exclaimed of their unusual beauty. Very striking. From 7 to 9 flowers are produced on the top of the strong stems making it the perfect cut flower. Will last ten days in water. **Each 40c, 3 for \$1.00.**

Pink Bouquet. A very attractive double producing from 5 to 8 very large flowers on each stem. Outer ray of petals in double row are rosy-pink while the center is made up of an interesting mass of shorter white petals. Very thrifty grower. Height about 30 inches. **Each 50c, 3 for \$1.25.**

Rose Glory. A beautiful deep rose-pink that delights all who see it. A vigorous growing variety producing an abundant crop of long stemmed anemone type flowers during May and June. Flowers are fully double and exceptionally good for cutting. **Each 50c, 3 for \$1.25.**

Roseum. Perhaps one of the most popular perennials for border and cutting purposes. Flowers of pink, red, and white in May and June and again in the fall. Our collection consists of many good single and double types in a fine range of colors. In mixtures only. Extra strong plants. **Each 20c, 3 for 50c.**

Snowcap. New! Offered for the first time. A fully double medium sized flower of purest white with a faint touch of yellow in the center. Harmonizes well with any of the colored varieties. **Each 50c.**

taking the garden lovers by storm. Far surpass the older varieties in size, coloring, and splendor. Stocks are limited as vegetative propagation is the only means of keeping varieties true to type. This is a slow process.

Our plants are strong field grown plants that will give abundant bloom this season if planted early. The first flowers after transplanting will often be single on the double types until the plants become established.

Trojan. One of the most unusual and perhaps the loveliest of the entire list. Intensely double forming a crested ball of rosy red petals. Not quite as tall as the others but outstandingly different. You will like it. **Each 40c, 3 for \$1.00.**

Victory. A fully double large pure white. An established clump of this pure white form is a lovely garden subject. **Each 50c, 3 for \$1.25.**

Buddleia

Charming. New Pink. This new Butterfly bush created a sensation when introduced a few years ago. Truly a glorious plant for the perennial border or used as a shrub in the lawn. Elegant long sprays covered with lovely lavender-pink blooms for two whole months in the fall. Compared with others this is distinctly pink. **Each 35c, 3 for \$1.00.**

Dubonnet—New Red. An entirely new color in Buddleia. The color is an exact counterpart of the popular French wine Dubonnet, a shade which has recently been popularized in dress fabrics. In sunshine and under the lamp it glows about a true red, the firm cylindrical spikes are snugly set with individual flowers of good size that do not sunburn. **Each 35c, 3 for \$1.00.**

Eleanor—New Blue. The color is Eleanor-blue with an orange eye. It is the color made fashionable recently and combines beautifully with any pink flowers. It keeps well as a cut flower. Very dwarf, strong, bushy plant attaining a height of only 30 to 36 inches. Flower heads are full rounded and compact. The individual flowers are of good size and do not sunburn. **Each 35c, 3 for \$1.00.**

Butler, Mo.

The fine quality bulbs you sent came yesterday in good condition.

Glorious Peachbells

(Campanula Persicifolia)

Of the many species of Campanula none are as showy as the Peachbell group. They are imposing perennials, perfectly hardy, easy of culture and bloom with such profusion year after year with little attention that to be without them is a

loss indeed. The long two to three foot stems literally covered with bloom make perfect cut flowers and last a long time in water. Brighten up your garden with plantings of these outstanding flowers.

Blue Spire. Undoubtedly the finest double blue Peach Leaf Bellflower ever introduced. The two-foot stems grow very erect holding the large double flowers in a conspicuous manner. Very free flowering. Given room and good culture develops into a beautiful specimen. Strong field plants. Each 40c, 3 for \$1.00.

Grandiflora. A grand type for garden planting and cutting. The stiff 3 foot stems are freely produced. Color from white to shades of medium blue. A bargain at these prices. Each 20c, 3 for 50c, 7 for \$1.00.

Grandiflora White. This grand white Peach Leaf Bellflower is the result of careful selection. Large flowers of purest white on strong 3 foot stems. Each 25c, 3 for 60c.

Purple Glory. This is a brand new introduction this year. The stocky branching stems attain a height of 18 to 20 inches and stand stiffly erect. During June these branching stems are literally covered with large true bell-shaped flowers of deep pansy-violet. This is the darkest colored Peachbell produced thus far. An excellent garden subject as the dark color is very noticeable. Stock very limited. Each 50c, 3 for \$1.25.

Summer Skies. New! Introduced for the first time last year. A marvelous creation of a hardy bellflower. Be the first one to grow it in your neighborhood. You will call in your friends to see it. It is just the flower to win the blue ribbon with at the June flower shows. We displayed hundreds of cut spikes of Summer Skies at the National Peony Show at the great Mayo Auditorium at Rochester, Minnesota, last June. Summer Skies "stole" the show away from thousands of the most beautiful Peonies ever displayed. People just passed up the Peonies to find out what that beautiful new blue flower was. You must have it. Each 50c, 3 for \$1.25.

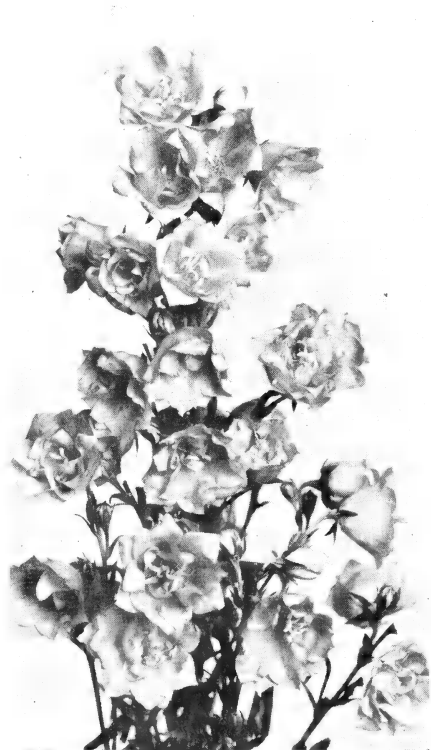

Tellham Beauty. This fine giant single Peachbell is considered the largest variety known to date. Strong stately stems to three feet carrying the giant saucer shaped blue flowers in July. Each 25c, 5 for \$1.00.

Wedding Bells. This new variety is being offered for the first time this year. We showed this variety at the great Rochester Flower Show a year ago and all who saw it marveled at its exquisite beauty. Plant is an upright sturdy grower with many lateral branches from the base which prolongs the blooming season by a month. Flowers are of medium size, partly doubled, pure snow white in color. Flowers remind one of the new large flowering Moch Orange. An excellent companion plant to either Blue Spire or Purple Glory. Each 50c, 3 for \$1.25.

Zelenople, Pa.

I received the plants you sent me in the best of condition and I want to thank you for the prompt way you handled the order. They were the best plants I had ever received from any company.

Hardy Asters

Amethyst. New! Perhaps the most double form of all hardy asters. The large blue flowers deeply shaded purple are lavishly produced on strong well proportioned plants. Height 3 feet. Each 30c, 3 for 75c.

Barr's Pink. A very strong growing Aster often reaching 4 to 5 ft. Flowers are large, of excellent substance, and a pure bright pink. A showy variety for the back of the border. Each 25c, 3 for 60c.

Beechwood Challenger. This new Aster came to us last year and we think it is the finest red in our collection. The color is a shade deeper than Red Rover. The medium sized flowers are produced on strong upright branching stems. Height 2 to 3 feet. Each 30c, 3 for 75c.

Blue Bouquet. Plants are covered with violet blue flowers with small yellow centers all during September. Excellent habit of growth. Height 18 inches. Each 35c, 3 for 90c.

Blue Gem. Considered the best double all blue aster in cultivation. Color, a deep striking blue. Flowers 1½ inches across. Excellent for mass effect. Height 3 ft. Each 25c, 3 for 65c.

Blue Gown. The finest late blue variety. Huge semi-double blossoms of deep china-blue on tall branching stems. Ideal for cutting. Height 3 to 4 ft. Each 35c, 3 for 90c.

Constance. We consider this the finest dwarf Aster ever developed. Pure shell-pink flowers produced by the thousands completely covering the rounded plant in September. Height 10 to 12 inches. Each 30c, 3 for 75c.

Countess of Dudley. A very dwarf charming clear pink flowered variety. Very bushy habit of growth. Height 10 inches. Each 25c, 3 for 65c.

Harrington's Pink. Matching perfectly the deep rose-pink of Ridgeway's color chart, this is the first true pink variety developed. Growing to a height of 4 feet or more, it completely eclipses Barr's Pink or any of the older favorites. A grand subject for autumn gardens and a fine cut-flower. Stock limited. Each 35c, 3 for \$1.00.

Lady Henry Maddocks. Clear pale pink flowers are produced by the thousands on dwarf compact plants. Height 12 inches. Each 20c, 3 for 50c.

Ivy Logan. This is perhaps the best new Aster that came to us last year. Lovely, brilliant electric blue flowers abundantly produced on graceful branching plants. Very striking in masses. Different from any other Aster. Height 3½ ft. Each 30c, 3 for 75c.

Lilac Time. We consider Lilac Time and Constance the two finest dwarf Asters. Lilac Time makes a dense bushy growth about 1 foot high and as far across. During September this mound is completely smothered with lovely soft lilac flowers. An ideal variety for edging purposes. Each 25c, 3 for 65c.

Maid of Athens. Glorious flowers of a shade of rose-pink produced on strong plants during September. Height 18 inches. Each 25c, 3 for 65c.

Marjorie. Bushy plants profusely covered with bright light pink flowers in September. Height 12 inches. Each 25c, 3 for 65c.

Kankakee, Ill.

Received plants in fine condition few days ago. Was surprised when I opened the package to find such strong, thrifty plants. I'm a new customer and so well pleased shall be back in the Spring with an order for more plants.

Mrs. E. B.

Mt. Ranier. A fine white companion to Harrington's Pink, Red Cloud and Barr's Pink. Large strong plants to 4 ft. tall with massive heads of large pure white flowers with yellow centers. In bloom from September to hard freezing weather. Each 30c, 3 for 75c.

Nancy. Another bushy little plant covered with flesh pink flowers in September. Height 12 inches. Each 20c, 3 for 50c.

Petunia. One of the newest and one of the best hardy Asters. The dense neat branching plants are literally covered with very double glowing petunia-purple flowers. Very outstanding in the garden. Height 2½ to 3 ft. Each 35c, 3 for 90c.

Queen Mary. A charming large flowered variety. The large flowers are produced on strong well proportioned plants. Color pleasing rosy-lavender with a decided pink cast. A very showy variety. Height 3 ft. Each 25c, 3 for 65c.

Red Cloud. The same type as Harrington's Pink and Mt. Ranier. The color is a bright rosy-red that does not fade in sunlight. Good strong growth up to 4 ft. Offered here for the first time. Each 35c, 3 for \$1.00.

Red Rover. The first good red Aster. Color a bright rosy-red with yellow center. Plant habits excellent. A Must Have. Height 30 inches. Each 25c, 3 for 65c.

Ronald. The rose-pink buds opening to clear lilac-pink completely hide the foliage during mid-September. Height 12 inches. Each 25c, 3 for 65c.

Royal Blue. Early erect growing variety with multitudes of rich royal blue flowers. Height 2½ ft. Each 25c, 3 for 65c.

St. Egwin. A row of this variety makes a dense hedge of bright rose-pink during September. Plants often completely covered by flowers. Very free flowering. Height 2 feet. Each 25c, 3 for 65c.

Strawberries & Cream. A lovely combination of deep rose-pink buds with softer tones of pink from the opened flowers. A grand novelty. Be sure and plant this one. Height 3 to 3½ ft. Each 30c, 3 for 75c.

Sunset. A glorious new pink Aster producing a lavish display of thousands of bright pink flowers in September. Compact plants. Excellent landscape variety. Don't Miss This One. Height 2 feet. Each 25c, 3 for 65c.

Sunset Glow. An improvement on the variety Sunset. A very useful clear rich pink in full glory in early September. Each 30c, 3 for 75c.

Victor. The dwarf round cushion-like plants are completely covered with lavender-blue flowers in August and September. The earliest dwarf Aster. Fine for bordering and rock garden. Height 10 to 12 inches. Each 25c, 3 for 65c.

White Lady. Good sized semi-double pure white flowers produced by the thousands on lateral branches from ground to the tip. A well flowered plant of this variety is a breath-taking picture in white. Height 2½ to 3 feet. Each 25c, 3 for 65c.

Winchell Variety. This is the largest flowered variety in our collection. Imagine a hardy Aster with blue flowers 2½ inches in diameter produced by the hundreds on strong well proportioned stems. Color soft lavender blue. One of the earliest blooming varieties. Height 3 to 4 ft. Each 30c, 3 for 75c.

Ypres. A neat variety with rosy-red flowers. Height 20 inches. Each 25c, 3 for 65c.

See Special Aster Collections on Bottom of Page 16.

Let's Plant A Victory Garden

From Sturdy Northern Grown Plants...There's a Difference

This year we have devoted a portion of our greenhouse space for the production of 100,000 vegetable plants for Victory Gardens. These plants are in splendid growing condition and have been specially treated with Vitamin B1 for successful shipping and transplanting. Because of the climatic difference throughout the country kindly give approximate date you would like to receive your plants. Plants will be ready from April 1 to June.

Select Hardy Perennial Plants

Achillea

The Pearl. Pure white button-like flowers are produced on plants about 20 in. high. Excellent for cutting and border planting. **Each 20c, 3 for 50c.**

Snowball. New! A grand improvement over older varieties. The perfectly formed double white flowers are produced in abundance on 18 in. stems. Ideal for cutting. **Each 25c, 3 for 60c.**

Alpine Aster. A very satisfactory and easy grown perennial for the rock garden or front of border. Multitudes of rose-purple daisies with orange center in May and June. Excellent for cutting. Heights 8 to 10 inches. **Each 20c, 3 for 50c, 8 for \$1.00.**

Arabis Kelleri. This dainty miniature Rock Cross is something entirely different. The tiny rosette-like clumps cling close to the ground from which the small white flowers appear on 2-inch stems. **Each 25c.**

Artemisia Silver King (Ghost Plant). Used greatly as a contrast plant because of the silver effect of the foliage. Sprays may be cut and used as fillers in bouquets. Color effect is that of frosted silver. Height 3 feet. **Each 20c, 3 for 50c.**

Asclepias Tuberosa (Butterfly Flower). One of the most brilliantly colored of American natives. Large umbels of glowing orange with trace of bright yellow and scarlet. Its vivid color blends well with other border flowers. An excellent cut flower. Strong 3-year plants. **Each 25c, 3 for 60c.**

Ajuga Reptans. Masses of glossy, dark green foliage throughout the summer. Dark blue flowers in June and July. Indispensable for a quick ground cover in bare spots. Prefers partial shade but does well in sun if given fairly rich soil. Height 3 to 4 inches. **Each 15c, 3 for 40c, 10 for \$1.00.**

Bleedingheart. A garden without at least one clump of Bleedingheart can hardly be imagined. Long graceful arching racemes of pink heart-shaped flowers in May. An excellent border plant and well suited among the wild flowers. Prefers rich light soil and grows to perfection in partial shade. We offer excellent strong potted plants that will bloom this summer. **Each 30c, 3 for 75c.**

Lake Bay, Washington

This is a great pleasure to acknowledge and thank you for the plants. Your plants are so good, so fresh and large.

A. K.

Campanulas

(BELLFLOWERS)

Latifolia. A handsome bellflower with enormous drooping bells of satiny lilac and purple shades. Height 2 feet. Blooming in July and August. **Each 25c, 3 for 60c, 6 for \$1.00.**

Glomerata Pusilla. We selected this midget form among many we grew. The plant grows into a little mound 3 inches high which is completely covered with deep midnight violet blue bells during June and July. An excellent little bellflower for either the rockery or front of border. Very scarce. **Each 40c.**

Medium (Canterbury Bells). The most popular biennial in cultivation. Plants grow to 2 feet in height and during early summer, covered with large bell shaped flowers of blue, pink, and white. Mixed colors only. **Each 20c, 3 for 50c.**

Trachelium (Coventry Bells.) This grand bellflower produces its graceful spire-like stems with pendant bells in July and August. Color a light purple. An enduring perennial. Height 3 feet. **Each 20c, 3 for 50c, 7 for \$1.00.**

Turbinata. One of the prettiest blue flowering plants for edging borders or the rockery. Foliage bright in compact mats from which spring the many large bell shaped flowers from June to October. Color from light lavender to deep purple. Height 6 inches. In constant bloom all summer. Very hardy. **Each 15c, 3 for 40c.**

Turbinata White. A selected white form found growing in our fields of blue plants. Like the above in all respects but color. Large white bells held gracefully erect on plants about 8 inches high. **Each 25c.**

Rotundifolia. This is the true Blue Bells of Scotland which is so abundant over the northern states and Canada. The very slender and wiry stems give forth their small blue bells from June to September. Attractive in the rockery or in front of the border. Height 1 foot. **Each 20c, 3 for 50c.**

Carnation Crimson King. An outstanding dazzling hardy red carnation for the garden. In continuous bloom from spring to fall producing many stems 12 to 14 inches high with clusters of double crimson fragrant carnations. Be sure to grow this in your garden. Strong sure blooming potted plants. **Each 25c, 3 for 60c.**

Carnation Grenadin Strain. An excellent strain of large flowering hybrids for border planting. Color will include all shades of red, pink, and white. **Each 25c, 3 for 60c.**

Centaurea Montana (Perennial Cornflower). A hardy perennial of very easy culture. Given a sunny location this plant will bloom from June to September. Large deep blue flowers which are excellent for cutting. **Each 20c, 3 for 50c.**

Chelone Lyoni. A fine perennial of easy culture producing long spikes of purplish-red flowers from July to September. Excellent for cutting. Grows 2 to 3 ft. tall. Does well in sun or shade. **Each 25c, 3 for 60c.**

Chrysanthemum Coreanum. The original parent of the popular Korean Chrysanthemums Hybrids. Of ironclad hardiness and distinctly beautiful in late fall. The white daisies shaded pearl-pink are produced in graceful sprays from late September on. Grand cut flowers. Height 2½ feet. Strong field plants. **Each 25c, 3 for 60c.**

Chrysanthemum Uliginosum (Giant Fall Daisy). One of the most striking fall blooming perennials. Covered in September with many white daisy-like flowers 2 inches across. A giant among daisies. Height 4 feet. A grand border plant. **Each 25c, 3 for 60c.**

10 Easy to Grow Perennials

Perennials—(Continued)

Columbine

(AQUILEGIA)

Blue King. A much improved strain, the result of many years careful selection. The vivid blue flowers are very large with extra long spurs. The yellow stamens add a charming glow to the already beautiful flowers. If one loves blue columbine this strain leaves nothing to be desired. Each 20c, 3 for 50c, 7 for \$1.00, 25 for \$2.75, 50 for \$5.00.

Chrysantha. A fine long spurred golden yellow form which blooms fully two months. Each 20c, 3 for 50c.

Crimson Star. Unquestionably the world's finest long-spurred red Columbine. Sepals and spurs deep blood crimson with center of white petals glorified by yellow stamens. A sensation for sturdiness and free flowering qualities. Very easily grown. Each 25c, 3 for 60c.

Orange and Scarlet Shades. A delightful blend of these two colors. All shades have long spurs and large flowers. Each 20c, 3 for 50c.

Rose Queen. A very vigorous strain growing 2½ feet tall. Flowers come in shades of light to dark rose with white center. Each 20c, 3 for 50c, 8 for \$1.00.

Scott Elliott Hybrids. Unquestionably the world's finest strain of long spurred Columbine because of their magnificent range of colors and sturdiness. Colors range from the deepest blues to lilac and heliotrope and from bright scarlet to pastel shades of pink. No other strain will approach it in richness of color. The plants we are offering are heavy two-year-old plants. The roots are filled with vigor and vitality ready to glorify your garden with their magnificent show in June. We cannot supply separate colors. Each 20c, 8 for \$1.00, 25 for \$2.75, 50 for \$5.00.

Sibirica. This Columbine from the frozen North of Siberia has vigor and hardiness not found in any other strain. Single plants become very large clumps producing big flowers, often double, in extravagant profusion year after year. Color from rosy amethyst to black violet. Each 20c.

Delphinium

Gold Medal Hybrids. The recognized superior strain of fine Delphinium. Grown from selected seed that shows a high percentage of choice doubles and extra large singles in varying shades and combinations of colors. Noted for its vigor and rugged habits, the perfectly formed spikes are held on erect stiff stems. Grand in the garden and superb as cut flowers. Each 25c, 5 for \$1.00.

Lamartine. The finest dark colored branching Delphinium. Color is a rich indigo-blue with distinct white center. Free flowering and very disease resistant. Each 25c, 3 for 60c.

Dianthus Deltoides (Maiden Pink). One of the prettiest border pinks, making neat mats of foliage bearing thousands of bright crimson flowers during July and August. Very easily grown and satisfactory in the rockery. Height 5 inches. Each 20c, 3 for 50c.

Dianthus Plumarius (Old-fashioned Pink). A spicy-scented pink, greatly improved in color and size. Many are double, dual-toned and finely lacinated. Excellent for small bouquets. 12 inches. Each 20c, 3 for 50c, 7 for \$1.00.

Dicentra Exima (Fern Leaf Bleedingheart). This dainty ever-blooming Bleedingheart is a joy to all who know it. It is of dwarf growth with finely cut fern-like foliage and pink flowers throughout the summer. Does exceptionally well in shade and will also grow in full sun if given moisture. We have a splendid stock of thrifty plants. Each 30c, 3 for 75c.

Dictamnus (Gas Plant). A very permanent plant, once established will usually outlive the planter. A very showy perennial producing fragrant spikes of rosy-pink flowers during June and July. Shapely plant and fine foliage make this an attractive plant even when not in bloom. Each 35c, 3 for \$1.00.

Digitalis Lutea (Foxglove). This yellow flowered foxglove is perfectly hardy here. Lives from year to year producing 2 to 3 foot spikes of attractive yellow flowers in June and July. Each 20c, 3 for 50c.

Daisies

Elder Daisy. This is the true Memorial Day Daisy as it is usually in bloom on that day. Smaller flowers than the others but literally produced by the thousands. Very fine cut flower. Each 20c, 3 for 50c.

Supreme. A new Shasta Daisy that is the finest we have ever seen. It is unsurpassed in size, clearness of white, fullness of center, and substance of petalage. The immense pure glistening white daisies are produced on tall, strong, straight stems over the entire summer. Excellent landscape variety and ideal as a cut flower. We offer strong field grown plants that will bloom the entire summer. Each 35c, 3 for \$1.00.

White Swan. A new early fully double Shasta Daisy. Begins to bloom in late May and continues all summer. It is so double that no center is visible. Excellent long stems. Fine for cutting. Each 30c, 3 for 75c.

Euphorbia Polychroma (Golden Spray). An unusual and distinctive globe-shaped plant covered with yellow flowers in May and June. Excellent for borders. 12 to 18 inches. Each 30c, 3 for 75c.

Festuca Glauca (Blue Fescue Grass). Much used for edging borders and for contrast with darker foliage. Grows in compact clumps making a delightful show because of the bright blue color of foliage. Height 8 to 10 inches. Each 15c, 3 for 40c, 10 for \$1.00.

Geum Borealis. A new alpine Geum which is perfectly hardy with us whereas the older varieties always failed us during the winter. Brilliant single orange-scarlet flowers on 1 ft. stems, during May, June, and July. Suitable for edging purposes as the foliage is neat and compact. Each 35c, 3 for \$1.00.

Geneva, Ohio

I am placing an order for the first time with you people. Through a friend that has dealt with you, I liked her Hemerocallis so much that I am sending an order for some.

Mrs. A. S.

Shasta Daisy Supreme

Perennials—(Continued)

Gypsophila (Baby's Breath)

Bodgeri. The new double dwarf Baby's Breath. Indispensable for cutting as it begins flowering two weeks before Bristol Fairy and is continuous thereafter until fall. The very double flowers open pure white changing to blush-pink as they age. Charming for garden display and very useful for cutting. The plants we offer are established and growing in pots and are absolutely guaranteed to be double. **Each 35c, 3 for 90c.**

Bristol Fairy. This glorious Baby's Breath continues to become more popular all the time. The strong growing plants are covered with a myriad of dainty double flowers from June to August. An unrivalled cut flower and adds a lacy appearance to the border. We are offering strong thrifty growing plants from pots that we will guarantee to be absolutely double. **Each 30c, 3 for 75c.**

Oldhamiana. The new autumn flowering Baby's Breath from Manchuria. It continues to bloom from late August until November or when cut down by frost. The little blossoms of daintiest pink suffusion are carried in close but graceful terminal panicles. Very valuable because it flowers later than any other type. Height 3 ft. Strong field plants. **Each 25c, 3 for 60c, 6 for \$1.00.**

Paniculata. 2-3 ft. In bouquets this dainty flower imparts an airy effect that no other flower can give. The great masses of small, pure white flowers come in July and August. Also unexcelled for winter bouquets. **Each 25c, 3 for 50c.**

Rosy Veil. A new dwarf pink double Baby's Breath that begins flowering two weeks earlier than other varieties. Excellent for bordering and cutting. **Each 35c, 3 for \$1.00.**

5 Plants, 1 of Each Baby's Breath \$1.25

Helenium Pumilum. A dwarf member of this famous family. Large golden yellow flowers completely cover the plants from July to October. Very showy and useful in the garden. Height 15 to 18 inches. **Each 25c, 3 for 60c.**

Hemerocallis (Golden Day Lilies)

Hemerocallis possess the characteristics of perfect perennials. They are perfectly hardy, easy of culture, free blooming, colorful, and have no insect enemies or diseases. By planting our strong sturdy plants you can be assured of abundant bloom next summer. They will tolerate almost endless neglect, poor soil, and locations, but to have them at their best give them rich soil.

Bay State. A strong growing and free flowering variety at its best in late June. Large brilliant deep yellow flowers with fluted petals produced on 4-foot stems. One of the best. **Each 50c.**

Calypso. Originated by Luther Burbank. An evening blooming type, rather large, clear lemon-yellow. Flowering scapes held stiffly erect. Flowers open about sunset and stay open only during the night and early morning. Will open on cool and cloudy days. **Each 75c.**

Citrina. A very fragrant, night blooming pale lemon-yellow. Has an excellent and robust habit of growth and an abundance of dark green foliage. Very free flowering, July blooming. Height 3½ ft. **Each 35c.**

George Yeld. Large, open flowers of the richest orange, shaded scarlet. Strong, erect stems carry the many blossoms at 3 to 3½ feet. July and August blooming. **Each \$1.00.**

Goldeni. A most effective garden variety of a deep gold-orange. Outstandingly good. Height 3 feet. July blooming. **Each 50c.**

Hyperion. We consider this the Model of Perfection in Day Lilies. Received award of merit from Royal Horticulture Society. Enormous full spreading flowers of soft canary-yellow freely produced on 40-inch stems. Blooms throughout July. Very

fragrant. If you want the best, don't hesitate to get Hyperion. **Each 75c, 3 for \$2.00.**

Kwanso Flora-Pleno. The only double Day Lily. Much used for naturalizing at summer homes and for cemetery planting. Color a rich bronze shaded with gold. Very hardy, will thrive where few other plants would survive. **Each 25c, 10 for \$2.00, 100 for \$12.00.**

Margaret Perry. A unique combination of colors. Orange with cadmium yellow throat and stripe down center of each petal. Very vigorous and well branched which extends blooming period almost a month. July and August blooming. Height 4 feet. **Each 75c.**

Ophir. One of the finest hybrid Hemerocallis. Received award of merit from Royal Horticulture Society. Flowers large, long trumpet-shaped with 6-inch spread. Color a warm orange-yellow. We consider Ophir one of the six finest Hemerocallis in existence. Height to 50 inches. **Each \$1.00.**

The Gem. A deep yellow of fine substance. Excellent form, equal to the best lilies. Height 3 feet. July blooming. **Each 75c.**

Thunbergi. An evening blooming pale yellow. Very fragrant. July and August blooming. Height 3 feet. **Each 35c.**

Hen and Chickens. Desirable and fascinating hardy succulent plants for the rock garden. Plants are hybrids grown from seed and will show many variations. A bargain. **Each 15c, 10 for \$1.00.**

Gaillardia

Sun God—Improved. A glistening new golden-yellow Gaillardia blooming all summer no matter how hot or dry the weather. Neat, upright 2 ft. plant with strong stems supporting the beautiful flowers. A real acquisition, a wonderful garden plant, and a long lasting cut flower. **Each 30c, 3 for 75c.**

Tangerine. The Gaillardia is one of the indispensable flowers for the hardy garden. Tangerine is a new variety with large orange-colored flowers. Ideal for cutting. **Each 20c, 3 for 50c.**

Gypsophila Bristol Fairy

Perennials—(Continued)

Hosta

(Plaintain Lily)

A family of plants much prized for their neat foliage effect and late summer flowers. Excellent plants for bordering walks or for the margins of lily pools. All will grow and bloom well in locations that receive no sunlight whatever. Ideal for edging between shrubbery and the lawn. Easily grown and hardy.

Aurea. The golden-leaved form with broad foliage and light lavender flowers during August and September. Particularly attractive in spring when the foliage is bright golden yellow. Prefers shade but will do well in sun if given moisture. **Each 25c, 3 for 60c.**

Caerulea Lanceolata. One of the finest of the group with rich dark green foliage produced in great rosette-like mounds. Blue lily-like flowers produced on strong stems about 18 inches high in August and September. **Each 30c, 3 for 75c.**

Lancifolia. Excellent for shade. Lilac-blue flowers in August and September. Exceptionally fine for edging. Look well planted along the north or shady side of a foundation wall. **Each 20c, 3 for 50c, 8 for \$1.00.**

Subcordata Grandiflora. Large white fragrant lily-like flowers in August. Immense leaves of bright green. This variety should be grown in a warm sheltered place. **Each 30c, 3 for 75c.**

Variegata. Beautiful edging plant with its green and yellow variegated foliage. Blue flowers in August. **Each 35c, 3 for 90c.**

Iris Cristata. A dainty creeping variety growing about 3 inches tall which soon forms dense mats of foliage. Excellent for the shaded rockery or the wild garden. Flowers rich amethyst blue in May. **Each 20c, 3 for 50c.**

Heuchera

(Coralbell)

Coralbell Pluie de Feu. An outstanding new bright red Coralbell which continues to bloom all summer. Outstandingly superior to old varieties. When well established and in bloom gives the impression of a fountain of fire. A splendid cut flower. **Each 30c, 4 for \$1.00.**

Rosa. We think this is the finest hardy Coralbell in cultivation. It is of easy culture, a very hardy strain, of sturdy growth and extremely free flowering. It is not unusual for us to go into our rows and gather arm loads of the dainty coral blossom to use as fillers for baskets of Peonies, and other large flowers. Imagine Coralbell stems 3 feet long—you can expect that from our strain. The plants form compact clumps of leathery green leaves from which arise slender 3 foot stems bearing a myriad of tiny bright coral pink bells. A shower of misty color all summer. A beautiful addition to the garden and excellent for cutting. **Each 25c, 3 for 65c. 10 for \$2.00.**

Iris

Aphrodite. A very tall grower. Flowers pinkish-lavender shaded orchid.

Ambassadeur. Magnificent and dependable. Bronze standards and rich red-brown falls.

Baldwin. One of the very largest flowers of a distinct shade of heliotrope.

Black Wings. A large deep midnight blue flower overlaid with a frosty black luster.

Buto. A rich deep velvety purple. One of the very largest.

Coronation. A deep glowing yellow. Very fine.

Corrida. A distinct cornflower blue.

Page Twenty

Dream. A favorite soft rose-pink.

Gleam. A fine large flower of a soft blue.

Gold Imperial. A beautiful pure yellow of fine color and form.

Ideal. A distinct shade of even light blue.

Indian Chief. A beautiful combination of violet-rose and rich glowing red.

King Juba. A wonderful Iris. Standards old gold, falls carmine.

Labor. Distinct in its coloring of reddish-violet.

Midgard. A combination of peach and yellow. Outstanding.

Mme. Gaudichau. Very early dark violet blue.

Morning Splendor. A massive Iris of rich violet. General color effect rich crimson. Fragrant.

Pink Opal. A rich pinkish-lilac self. Very good.

Pioneer. An immense purple of fine form.

Pluie d'Or. One of the very finest yellow Iris.

Rameses. One of the most outstanding of all Iris. Large, free flowering and outstanding. Color light russet flushed with pink.

Rosa Bonheur. Old gold standards and falls same color overlaid lavender and buff. We like this one.

Seminole. Old but still unsurpassed for the red effect.

Susan Bliss. Pink with distinct orchid tone.

Taj Mahal. A fine pure white.

Trostringer. Another of the fine so-called pink Iris.

True Charm. Flowers white with delicate lavender-blue edging. Tall.

Wedgewood. We like this the best of all rich blue Iris.

Zua. An early white with petals crimped like crepe paper. A lovely and unique flower.

20c each - 3 for 40c
Any 12 for \$1.50

Siberian Iris

Blue Heron. Large medium-blue. The very first of the Siberian Iris to bloom. Height 3 feet. **Each 20c, 3 for 50c.**

Dragonfly. A very intense blue. Good keeping qualities. **Each 20c, 3 for 50c.**

Emperor. A noble form with large flowers of a deep violet-blue of good texture. Height three feet. **Each 25c.**

Periwinkle. Bright violet blue with some white at center. Standards very tall and flushed with purple. Height 3½ ft. **Each 25c, 3 for 60c.**

Pseudacorus. The very popular and handsome yellow European water Iris. Thrives very well in ordinary garden soil. A handsome plant for the margin of a stream or beside a pool. **Each 25c, 3 for 60c.**

Skylark. A fine medium dark blue. Very tall and graceful. 3½ ft. **Each 20c, 3 for 50c.**

Stardust. A lovely form that should be in every collection. The petals are broad and full, of snowy whiteness with a rich golden-yellow center. The best of all white Siberian Iris. **Each 25c, 3 for 60c.**

Sunnybrook. A great favorite of a pleasing shade of Alice Blue. **Each 25c.**

Manhasset, L.I., N.Y.

The Aquilegia and Daisies were received today in perfect condition. I am delighted with them.

Mrs. L. J. McD.

Lilies

Regal. The large, immaculate, pearly white trumpets flushed pink on the outside with a deep golden throat are the joy of the June and July garden. Exceedingly fragrant. Does well in any soil or location. The bulbs we are offering are splendid, disease free, and winter hardy. No better bulbs are obtainable anywhere regardless of price. **Each 20c, 7 for \$1.00, 25 for \$3.15.**

Tigrinum Fortuni Giganteum. A much improved later flowering form of the Tiger Lily. When well established will grow 6 to 7 feet tall and carry as many as 40 to 50 flowers per stem. The color is a bright orange-salmon, spotted purple. Very desirable and easily grown. Plant bulbs 6 inches deep. Offering only fine blooming size bulbs this season. **Each 25c, 3 for 60c.**

Umbellatum Grandiflorum. Massive blooms of upright flowers which are six inches across. Color bright orange, flushed red and slightly spotted black. Blooming in July. Excellent variety for prolonging the blooming season as it blooms 10 days later than any other variety. Very robust. Height 3 to 4 feet. **Each 25c, 3 for 60c.**

Linum Perene (Blue Flax). Every morning brings a new shower of blue to you on slender graceful stems. Blue Flax is easily grown in full sunlight on light soil. Foliage feathery and of a pleasing blue shade. Height 18 inches. **Each 20c, 3 for 50c.**

Lychnis Chalcedonia Salmon Queen. Heads of bright salmon-pink flowers in bloom most of the summer. Easy to grow. Height 30 inches. **Each 20c, 3 for 50c.**

Lychnis Haageana. Clusters of vivid orange-red, scarlet or crimson flowers from June to August on plants about 1 foot tall. This variety prefers light shade to be at its best. **Each 25c, 3 for 60c.**

Nepeta Six Hills Giant (Catmint). A good bordering plant to use along walks or paths where the soil is dry and sunny. Small blue flowers are good for cutting. Height 10 inches. **Each 20c, 3 for 50c.**

Oenothera Youngi (Evening Primrose). A strong upright growing plant with bright foliage and large single yellow flowers resembling wild yellow roses. Blooms from June to August. Easily grown on light soil. **Each 20c, 3 for 50c.**

Opuntia (Hardy Prickly Pear Cactus). We enjoy growing this novelty in our gardens. Large ear-shaped leaves of dark green and large yellow flowers with brown centers in June and July. Perfectly hardy anywhere. **Each 20c, 3 for 50c.**

Pardanthus (Blackberry Lily). An old-fashioned hardy perennial. A lily-like plant with orange and black spotted flowers on stems about 30 inches high, which are followed by large black seeds, resembling a blackberry. **Each 20c, 3 for 50c.**

Liatris

(Blazing Star)

A very showy group of plants much prized for their brilliant spikes of late summer flowers. All are of easy culture, perfectly hardy and last for years in the garden. Excellent plants to grow on poor soil.

Callilepis. One of the earliest to bloom producing fine spikes of rich reddish-purple blooms in August. Height 2 to 3 ft. **Each 25c, 3 for 60c.**

Pycnostachya. During July and August nothing in your garden will attract more attention than this unusual flower with its strong spikes of rich purple bloom. Height 3 to 4 feet. Excellent for cutting. **Each 20c, 3 for 50c.**

Scariosa Alba. A delightful new white form that has received much favorable comment. Pure white spikes of flowers on stems 3 to 4 ft. high. Stock scarce. **Each 30c, 3 for 75c.**

Pentstemon

Barbatus Torreyi. The very pendant scarlet tubular flowers, like tiny firecrackers are produced on slender stems 2 to 3 feet high. In bloom from June to August. Excellent in the border or for cutting. **Each 25c, 3 for 65c.**

Garnet. The finest of all large flowering Pentstemons. The large Gloxionia-like flowers are a rich garnet and are lavishly produced from June until stopped by frost. Grows to a height of about 18 inches and has a continuous succession of new sprouts coming into flower all summer. Really a remarkable new plant. Excellent for cutting as the flowers last a week in water. (See color illustration). **Each 35c, 3 for \$1.00.**

Pentstemon Pubescens. An excellent plant to grow on poor soil in a hot, dry location. Plant grows about 2 feet tall with spikes of violet to pink flowers. **Each 20c, 3 for 50c.**

Platycodon (Japanese Balloon Flower). The large, bell-shaped flowers of rich blue glorify the perennial garden during July and August when a cool color is needed. Given a rich, sandy, well-drained soil in full sun the Platycodon is a very permanent plant. We have plants in our border that have been undisturbed for twelve years and have never failed to give an abundance of bloom each summer. Grows 2 to 3 feet tall. Splendid two-year-old roots that will make a good showing this summer. **Each 20c, 7 for \$1.00.**

Physostegia Summer Glow. New. A tall August blooming variety of this popular flower. Excellent as a background plant as the long spikes of rosy crimson flowers are showy all during late summer and early fall. Height 3 to 4 feet. **Each 25c, 3 for 60c.**

Physostegia Vivid. A valuable addition to the list of fall flowering perennials. A new dwarf variety much superior to the older sorts. Height about 18 inches forming a sturdy and compact plant producing a multitude of stems with rosy crimson flowers. Last a long time when cut. **Each 25c, 3 for 50c.**

Ranunculus (Buttercup). This is also known as the Yellow Bachelor's Button. Very double glossy golden yellow flowers most of the summer on stems 18 inches high. Very free flowering. Excellent cut flower. **Each 20c, 3 for 50c.**

Ranunculus Repens. A pretty, double flowering bright golden yellow buttercup of creeping habit. Flowers in May and June. Multiplies by runners like a strawberry plant. Height 10 inches. **Each 20c, 3 for 50c.**

Regal Lily

Perennials—(Continued)

Rudbeckia Purpurea. The giant purple cone-flower is a splendid plant for the hardy border. Most attractive rosy-purple flowers with a large brown cone-shaped center. In bloom from July to September. Height 3 feet. **Each 20c, 3 for 50c.**

Scabiosa

New House Hybrids. This is one perennial plant that is in continuous bloom from spring until killed by frost in fall. The wavy petaled flowers are borne on long stems and come in many beautiful shades of blue and lilac. The ideal cut flower. Strong field plants. **Each 30c, 3 for 75c.**

Fischeri. The graceful plants two feet tall are literally alive with color during the entire summer. There seems to be an un-ending succession of sparkling lavender blue double flowers all summer. Grand for cutting. All in all one of the best new flowers produced in the past 10 years. Strong sure blooming field plants. **Each 30c, 3 for 75c.**

Sedum

Anopetulum Elegans. A terrible name, but none the less a very beautiful and outstanding Sedum. Silvery blue branching stems 4 to 5 inches tall. Like branchlets of the best blue spruce. Outstandingly good. **Each 25c.**

Mixed. From our very large collection of hardy Sedums we have selected what we consider the best varieties for rock gardening and general planting. We are offering these at this remarkable low price of 15c each. A collection of 10 outstanding varieties for **\$1.00.**

Spectabilis Brilliant. A strong growing form with large flat heads of brilliant amaranth-red flowers in September. Foliage is thick, blue-green in color and very attractive. **Each 20c, 3 for 50c.**

Variegated. An erect growing variety much prized for the bright colored golden yellow foliage. An ideal plant to border beds and walks with as it grows about 10 inches high and will always stay trim and within bounds. **Each 20c, 3 for 50c.**

Trollius

(Globe Flowers)

The Trollius comprise some of the finest border plants in existence. The glorious golden buttercups with their waxy incurved petals and prominent stamens are always admired. A well grown group of Trollius in full flower is a breath taking sight. They are perfectly hardy, have fine foliage and are very floriferous. They are easily grown in any rich soil that retains moisture well. One cannot praise Trollius too highly. Excellent for cutting purposes.

Canary Bird. One of the very best of the early varieties. Usually in bloom with the Darwin Tulips. Exquisite clear yellow globes on 15 to 18 inch stems. **Each 25c, 3 for 65c.**

Earliest of All. A very early variety with flowers of a pure golden yellow. Height 15 to 18 inches. **Each 25c, 3 for 65c.**

Excelsior. A strong plant a bit taller than the others, with globe-shaped reddish-orange flowers. Height 18 inches. **Each 25c, 3 for 65c.**

Ledebouri Golden Queen. A very vigorous grower blooming fully three weeks later than the early sorts. Flowers are large 3 to 4 inches across, a dazzling golden-orange with very prominent anthers. Flowers more open than the early varieties. Very useful for cutting as the stems are 30 inches long. Often blooms a second time in fall. Height 3 ft. **Each 30c, 3 for 75c.**

Salamander. A robust growing variety with excellent globe flowers of a pleasing orange shade. Height 20 inches. **Each 25c, 3 for 65c.**

Veronicas

(Speedwell)

The veronicas are considered to be one of the best perennials for American borders. They are easily grown, perfectly hardy, last indefinitely, and give some wonderful cutting material.

Incana. The bright frosted silver colored foliage makes this an attractive plant even when not in bloom. The deep blue flower spikes are produced in July and August on one foot stems. **Each 20c, 3 for 50c.**

Longifolia Subsessilis. A fine plant for the hardy border increasing in beauty year by year and giving loads of good cutting material. Blue flowers on the compact, tapering spikes from July to September. Height 2 feet. **Each 30c, 3 for 75c.**

Prostrata. A prostrate plant with stems rooting as they grow. Blue flowers in June. Good plant for the rockery. **Each 20c, 3 for 50c.**

Royal Blue. A beautiful variety producing handsome spikes of rich gentian blue flowers during June and July. One of the prettiest and brightest. Height 1 foot. **Each 25c, 3 for 60c, 6 for \$1.00.**

Violas

Jersey Gem. The ever popular beauty. Large pure rich violet blue flowers in abundance. **Each 20c, 3 for 50c.**

Sweet Violet Rosina. This new pink violet blooms throughout spring and summer and with the approach of the cool fall days seems to burst into blossoms with multitudes of those deliciously fragrant rosy-pink violets. This violet seems to thrive as well in full sun as in shade. A grand plant for carpeting under shrubs. Strong field plants. **Each 30c, 3 for 75c.**

Odorata Semperflorens. An everblooming sweet-scented viola. The flowers are medium size and of Alice blue. The fragrance leaves nothing to be desired even though the blossoms are not large. A good grower and when established will form a big clump. Does well in light shade. **Each 25c, 3 for 65c.**

White Violet. This unusual violet is so outstanding that it is in a class by itself. Can you imagine a violet with stems from 4 to 6 inches long and with large white flowers with purple markings? Plants are literally covered with flowers for a period of two weeks. A grand cut flower. You cannot afford to be without this violet. **Each 25c.**

IMPORTANT

We do not sell storage stock or even recommend the use of such inferior stock. Our plants are all freshly dug for each order and on the way to your garden the same day they leave our fields. When you receive them you can be assured of field freshness. That is why we have thousands of satisfied customers throughout the length and breadth of this land. Give us a trial order and be convinced.

HOW TO ORDER

We appreciate all orders. No order too large and none too small. We are thankful for all of them. Remittance may be made by registered letter for cash. Stamps, postal or express money order or personal check also accepted. **When sending check kindly add 5c for exchange fee.**

ATTENTION!

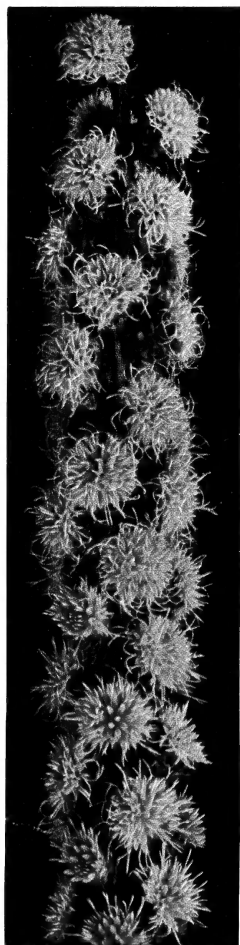

We pay the transportation charges on all orders of \$2.00 or over. On smaller orders kindly add 10 per cent to cover postage.

If we do not have specific directions from you on how you want your order shipped, we use the method that we think the fastest and best in getting your order to you. If it is more convenient to receive your order by express than by parcel post kindly state this on your order.
